BLUSHES of CREAM—illustrated on Front Cover

Eight or more beautiful and refined florets of heavy texture open at a time. Not only remarkable for exhibition but for landscape beauty. The general color effect is one of those beautiful apricots blushed deeper in upper portion of throat. Lower throat a very delicate canary yellow blending lightly into a delicate flesh pink. This variety can be recommended of outstanding quality. To appreciate it fully you must see it. Stock limited, order now. Plain petaled, 88 days. **50c each, 3 for \$1.25. Postpaid.**

Terms

DISCOUNTS . . . Prices quoted are net. In view of extremely low prices no discounts are given. However, on all orders received before March 1, 1935, accompanied with full remittance, we will add gratis, a bulb or bulbs to the value of 50c. **This offer positively void after March 1, 1935.**

TERMS . . . Remittances must accompany all orders in the amount of \$2.00 or less. Orders for more than this amount will be accepted on a deposit of 50% and will be shipped C. O. D. for the balance. On all orders sent C. O. D. customer is required to pay for the actual transportation charges and the amount charged by the Express Company or Post Office Department for handling C. O. D. shipments.

Orders for less than \$1.00 not accepted as these can only be filled at a loss.

Send bank draft, express or postal money order, or if more convenient for you, we will accept your personal check.

Where not indicated, the dozen price is 3 times the three rate. Hundred price is 7½ times the dozen rate. 50 bulbs of a variety at the 100 rate.

GUARANTEE . . . We guarantee safe arrival of all shipments. All our bulbs have been inspected by our State Department of Entomology and have been given a certificate as FREE FROM GLADIOLUS THRIPS and DISEASES. We also guarantee that each variety will be true to name.

QUALITY . . . We exercise great care in growing and caring for the bulbs at all stages. All bulbs sent out are strictly young stock. Our curing and storing methods are also superior. All this goes to make QUALITY. Your success depends upon quality and our success depends upon yours. Kunderd Gladioli grow and will produce marvelous results.

TRANSPORTATION CHARGES . . . We prepay shipping charges on all retail gladiolus orders forwarded during the regular shipping season which begins soon after February 15th. Earlier shipments can be made if desired, but these go forward express charges collect to insure against freezing.

CLAIMS FOR SHORTAGES . . . These should be made immediately upon receipt of goods.

SUBSTITUTION . . . From many years experience, we have found that when out of certain varieties ordered, the customers prefer the substitution of a similar or better variety, rather than a refund. Therefore, we carry out this plan. If you do not wish any substitutions, please advise when placing your order.

SPECIAL COLLECTIONS . . . Special collections of named varieties (labeled), collections of only Ruffled varieties or collections of only certain colors will be made up for any customer who may wish our aid in deciding what to plant. Please state choice of colors, varieties you have grown and amounts you wish to buy.

CANADIAN SHIPMENTS . . . Because of the regulations of your Government, please obtain a permit for the importation of bulbs from the Destructive Insect and Pest Act Advisory Board, Ottawa, Ont. They will furnish you with the shipping label which you will please forward to us for affixing on your order.

IRIS and PEONIES . . . We grow approximately 35 acres of peonies and iris of the WORLD'S FINEST VARIETIES. We can make early spring delivery if requested although the regular iris shipping season begins last of June and the peony shipping starts in September. If interested write for our quotations.

Gladioli are Easy to Grow

Any good garden soil is suitable for gladioli although they do like a sandy loam best. In preparing the soil follow only such methods as you would give a fine crop of garden vegetables. However you will be rewarded for any special care given them in the way of cultivating, fertilizing and watering.

It should be remembered that Gladioli enjoy sunshine and should not be planted in very shady places. Plant in rows, beds, borders, among shrubbery, roses, other flowers, etc., or in separate groups.

Planting should begin any time after early garden-making, followed by successive plantings at say ten day intervals until early July. Set the bulbs four inches deep and from four to eight inches apart. The very finest blooms come from the earliest and the latest plantings. These gladioli have the opportunity of coming into flower when the days are somewhat cooler and they really make much nicer flowers than in the terrific hot summer days.

Complete cultural instructions including information on insect and disease control will be included with each order. You will find this information very much worthwhile for it tells you just how to care for your bulbs throughout the entire year, including the harvesting and storing of the bulbs so you will have fine gladioli for the next season.

Our Message To You

ABOUT THE CATALOG. We take pleasure in presenting you with this, our 1935 Catalog. On pages 4 and 12 you will find two of our famous special collections. Page 23 is our mixture page, offering for your approval the finest in gladiolus mixtures. These are outstanding bargains and we highly recommend them.

SHORTAGE OF BULBS. Reports coming from various sections of the country indicate an actual shortage of first class gladiolus bulbs this year, due to drought and thrips. We, however, have excellent stocks of the finest quality and our crop produced wonderful increase this year. With the assured increase demand for gladiolus we expect a complete sell-out quite early in the season. Do not delay too long in sending your order.

FINEST QUALITY. All our bulbs are hand sorted to insure uniform quality. They are all inspected by the Indiana Department of Entomology and are shipped under State Certification of Inspection, insuring their freedom from injurious pests and diseases. We spare no expense in producing the finest gladiolus bulbs grown. Our large, modernly equipped storages were especially built so the bulbs could be handled to the very best advantage. We had plenty of rain at the right time last August and early September which gave the bulbs the moisture they needed to produce an excellent crop of the finest reproductive quality. The name KUNDERD on your bulbs implies the finest gladioli that grow.

REGARDING PRICES. In looking over our catalog you will find many varieties at lower prices than in 1934. We want them lower for we expect a big increase in sales this year, so our prices must be right. With the right prices and quality — KUNDERD QUALITY — all gladiolus lovers will buy.

BEAUTY OF KUNDERD GLADIOLI. Many letters of commendation come to us from discriminating customers and growers from all parts of the world. Words fail to express their praise for the beauty they find in Kunderd Gladioli. There is an endless array of gorgeous colors, whites, pinks, lavenders, purples, yellows, reds and combinations of colors that places the gladiolus pre-eminently in the foreground among all flowers.

REDUCTION IN VARIETIES. On every hand today we hear it said, "There is too much of this." We have analyzed the situation in regard to gladiolus varieties. Last spring and summer we checked and rechecked our stocks carefully with the result that we reduced the numbers of varieties to 294. This year we are introducing but 14 new creations (described on page 6). In reducing the number of varieties we have kept only the very finest — the cream of the list. We know each and every variety offered in this catalog is most outstanding and deserving of a place in the gardens of not only the connoisseur but those who grow only for the beauty which gladioli give them.

ACTIVITIES AT THE CENTURY OF PROGRESS. We kept, at the 1933 World's Fair, a continual gladiolus show in the Horticultural Building for 9 weeks during August, September and October. Our exhibit filled the large exhibition hall and presented a flash of color never to be forgotten. Again in 1934 we repeated our show. If you were a visitor perhaps you saw this wonderful display or some of the many Kunderd Gladioli plantings located in various places out of doors including the State of Florida planting in the Court of States. The expressions of admiration from the many visitors justify our belief that Kunderd Gladioli made a most favorable impression on their minds.

Our "Glad
Garden"
Collection

The "Glad Garden Collection" contains 36 gladioli, all large size bulbs, each one a different variety and all properly labeled so you will know them. There will be ruffled and plain petaled kinds and a few of the newer and better large primulinus. We guarantee the collection to have a retail value of at least \$5.00. The varieties will be selected so as to present a harmonious blending of colors. This is unquestionably the most outstanding collection of gladioli, offered under name and label, to be found in any catalog.

These illustrations only partly show the real beauty to be had in this collection. Every color imaginable will be found at blooming time. Beauties like these will surely be appreciated. And just think—all these glorious gladioli for only \$2.00 postpaid right to your door. Where else can one purchase, for so little, such enjoyment as these marvelous gladioli will bring?

Sept. 18, 1934.
Well, the end of the season is here and I wish that I had bought 500 of your last offer of mixed glads rather than just the single hundred which I purchased. They were a real mixture and that is more than you can say of most such articles on the market. Please don't forget me when you send out your glad folders for next year as I am certainly going to stock up on some of your material.

Sept. 18, 1934.

Incidentally we had about as fine a show of Kunderd Glads as have ever appeared in Nassau County. This in spite of the fact that we did not get them planted until late in June. But the colorings of some of these varieties were magnificent and I am not exaggerating when I tell you that many of the spikes stood as high as I, which means 5' 4". KUNDERD GLADIOLI in MIXTURES

A WORD ABOUT OUR MIXTURES

Do not confuse these mixtures with those that are made up specially for orders from overstocked named varieties. Ours are all grown in mixture form in the fields. Each year we add many new kinds so the mixtures are constantly being improved. There are thousands of varieties being grown in these mixtures and they present a very lovely picture with their exquisite blending of colors.

GLORY MIXTURE

Kunderd's Glory Mixture is generally acknowledged as the leader among mixtures. It contains a very well balanced assortment of the choicest of the large flowering, plain and ruffled petalled types of gladioli. Every color and hue is blended together to make as nearly as possible the perfect mixture. Shipped prepaid. **25 bulbs \$1.00. 50 bulbs \$1.75. 100 bulbs \$3.00.**

ORCHID MIXTURE

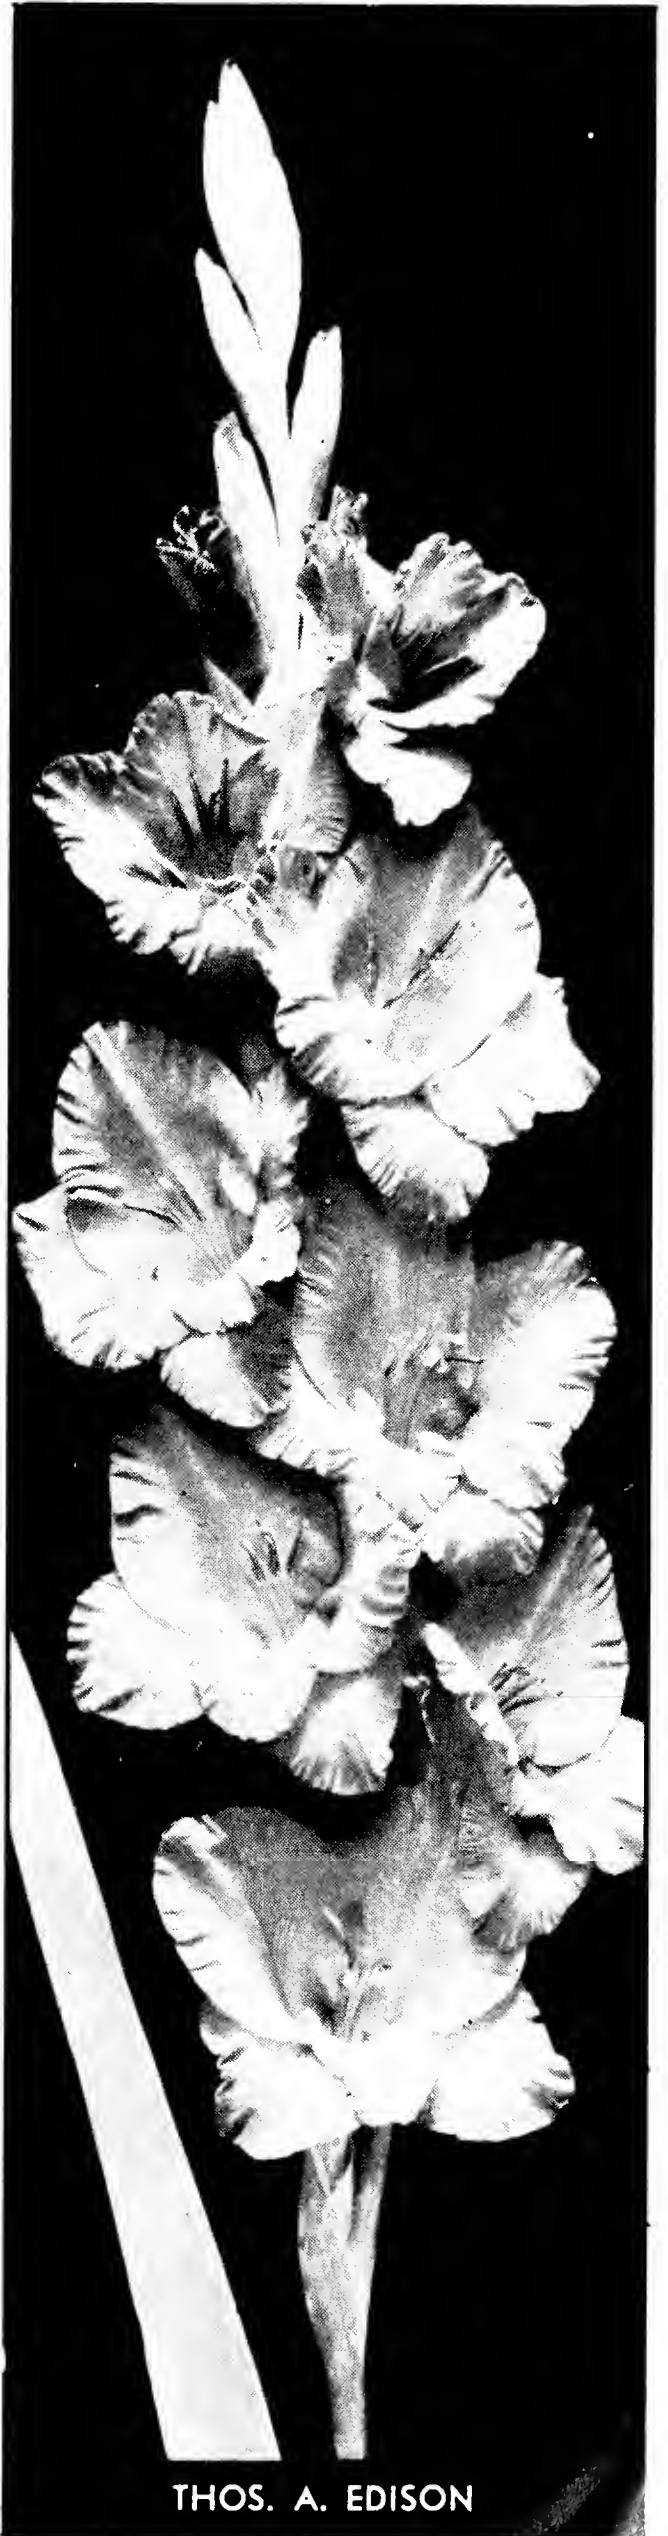

This name has been given to our most highly improved mixture of the grandiflora primulinus type. This name was inspired because of the butterfly or orchid resemblance. The Orchid Mixture comes primarily in yellows, orange, saffron, copper, and the delicate pastel shades, in a wider range of colors than in any other Primulinus Strains. This type of gladioli lend themselves very graciously to the more delicate floral arrangements. Shipped prepaid. **25 bulbs \$1.00. 50 bulbs \$1.75. 100 bulbs \$3.00.**

BABY GLAD MIXTURE

This mixture contains only the small type gladiolus. There are both the upright kinds that is, those whose blooms are upright as in the upright lilies; and the lacinated kinds, those whose petals are lacinated or cut edged. The most of them are small in size, but will prove beautiful, interesting, and valuable for dainty floral pieces and charming flowers for rockeries, borders, etc. If you are interested in gladioli that are really different you should by all means order some of these. Shipped prepaid. **25 bulbs \$1.00. 50 bulbs \$1.75. 100 bulbs \$3.00.**

WONDER MIXTURE

This is by far the best mixture ever offered to the public by any grower. It contains an excellent assortment of colors of the large flowered, ruffled and plain petalled types. You will also find a number of the larger and better Grandiflora Primulinus. The Wonder Mixture has many of the newer introductions in it which makes it ever so much more attractive. Shipped prepaid. **25 bulbs \$1.25. 50 bulbs \$2.00. 100 bulbs \$3.75.**
